

XMOR® BHB & BHC SERIES

MAINTAIN PRODUCTIVITY WITH XMOR® SERVICE KITS

XMOR®

Add new life to your high-productivity XMOR® BHB or BHC buckets with our customized service kits.

The XMOR® service kits are designed and manufactured to suit the most common refurbishing needs, ensuring seamless compatibility and superior performance.

OPERATIONAL READINESS ASAP

All buckets are repaired using Hardox® wear plate and Strenx® performance steel, assuring uncompromising quality and durability.

SERVICE YOUR XMOR® BUCKET QUICKLY IN THE FIELD

Trusted network of XMOR® partners

Only XMOR® Partners can access authentic design and manufacturing blueprints, guaranteeing meticulous restoration of XMOR® BHB or BHC buckets to the most elevated standards and specifications.

No need for reverse engineering

Our primary aim is to reinstate your bucket for operational use. Each kit is uniquely tailored to your XMOR® BHB or BHC bucket through a designated serial number.

This strategic approach eliminates the need for time-consuming reverse engineering, ensuring efficiency and avoiding unnecessary delays.

An opportunity to customize your bucket

Collaborating with an authorized XMOR® Partner for bucket repair empowers you to consider modifications such as altering the cutting edge contour or even opting for a different brand of Ground Engaging Tools (GET), as needed.

XMOR® BHB SERVICE KIT

For maintenance work on site, the XMOR® BHB Service Kit has you covered. The kit contains prefabricated wear parts for easy installation on your XMOR® BHB bucket. Individual parts can also be ordered.

The kit includes:

- Heel Segments (with new bolts and washers)
- Keel Pad
- Floor Overlays
- Transitional Plate
- Wing Shrouds (with new bolts and washers)

XMOR® BHC SERVICE KIT

Your on-site maintenance needs are met with the XMOR® BHC Service Kit. This kit includes ready-to-install wear parts designed specifically for your XMOR® BHC bucket. If needed, you can also order individual parts separately.

The kit includes:

- Heel Segments (with new bolts and washers)
- Keel Pad
- Floor Overlays
- Transitional Plate
- Wear Liners
- Wing Shrouds (with new bolts and washers)

XC

With the objective to change the mind-set of the earth-moving industry, XMOR® provide premium products with unique and innovative designs to revolutionize excavation, loading and hauling.

XMOR® delivers the most productive products in the mining and earth moving industry that take full advantage of the latest materials from SSAB. The combination of using the world's best steels, with optimized design and the highest quality production processes, makes it possible to reduce weight and offer larger products with higher payloads than their counterparts; increasing the productivity of your assets and reducing your cost per ton. In short, with XMOR® you can expect more in less time.

XMOR® buckets can be fitted to virtually any OEM equipment, which means you can swap out existing buckets and start saving immediately. Or if buying new equipment you can in many cases go down one machine size and still produce as much as earlier. XMOR® buckets are made available globally by carefully selected and highly qualified licensed partners with extensive experience.

XC

The service kits are provided by XMOR® Partners and appointed wear service centers. Contact your local supplier for the services you are looking for, whether it's performing the maintenance work or delivering kits for your own installation.
