

XMOR® BHX

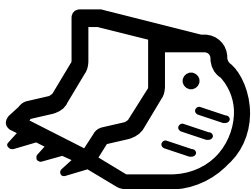

EXPECT MORE IN LESS TIME

HIGH QUALITY MINING BUCKET

- Built from Hardox® wear plate and Strenx® performance steel grades
- The bucket contains patented features such as the unique XMOR® keel that reduces wear and increases capacity
- Capacity increase of up to 15% (compared to standard OEM bucket). Moving from 2.8 to 3.3 m³
- Developed to be optimized together with the XMOR® mining tipper body. Saving one pass compared to standard OEM bucket

INCREASED CAPACITY

2.8 m³

3.3 m³

Common class
50 ton machine
